PLANETARY SOUL THERAPY

A person is silhouetted against a starry night sky, looking up at a bright star or comet. The sky is filled with stars and a prominent purple and blue aurora-like glow. The person is standing on a dark, silhouetted hill or ridge. The overall scene is dark and atmospheric, with the person's silhouette providing a focal point against the vast, star-filled sky.

# How to find your own astrology chart!

**1. BIRTH CERTIFICATE.** Please find a copy of your birth certificate. Please don't rely on your mother's memory because if you are off by just a minute that could change your Ascendant (or rising) or the Moon's placement. Once you have your certificate then head to **step 2**. If you don't have your birth certificate you can pick an unknown time.

**2. GO ONLINE.** Go to the Emerald City Astrology home page and scroll down to the “Get Your Natal Chart” <http://www.emeraldcityastrology.com/natal-chart/>.

**3. ENTER YOUR INFORMATION.** Follow the instructions and after you have “Added a New Person” then change the “House System” to “Whole Signs” which you find under the heading “Options for zodiac and houses”. See screen to the right.

The screenshot shows the Emerald City Astrology website's natal chart generation interface. The form includes fields for "Horoscope for:" (Josephine Baker) and "Partner:" (Amy Dorcas). A dropdown menu for "Options for zodiac and houses" is open, showing "Whole Signs" selected. Other options include "House System:", "Default settings", "Standard drawing:", "Reference place:", "Reset the form:", "Display and calculation options", "Miscellaneous", "Progressions", "Traditional astrology options", and "Aspects". A blue arrow points to the "Whole Signs" option in the dropdown menu.

# Astrology glyphs & symbols

**1. 1ST CIRCLE.** The View from Earth. In the very middle of the chart is a circle with an "X". That is the earth. This is actually a fundamental and important concept. Everything you are looking at is from our perspective here on earth. A galactic astrologer can give you a heliocentric chart with the sun in the middle and the planets would probably be in the same sign, but maybe not. From our viewpoint on earth, it looks like the sun moves around the earth because of our perspective.

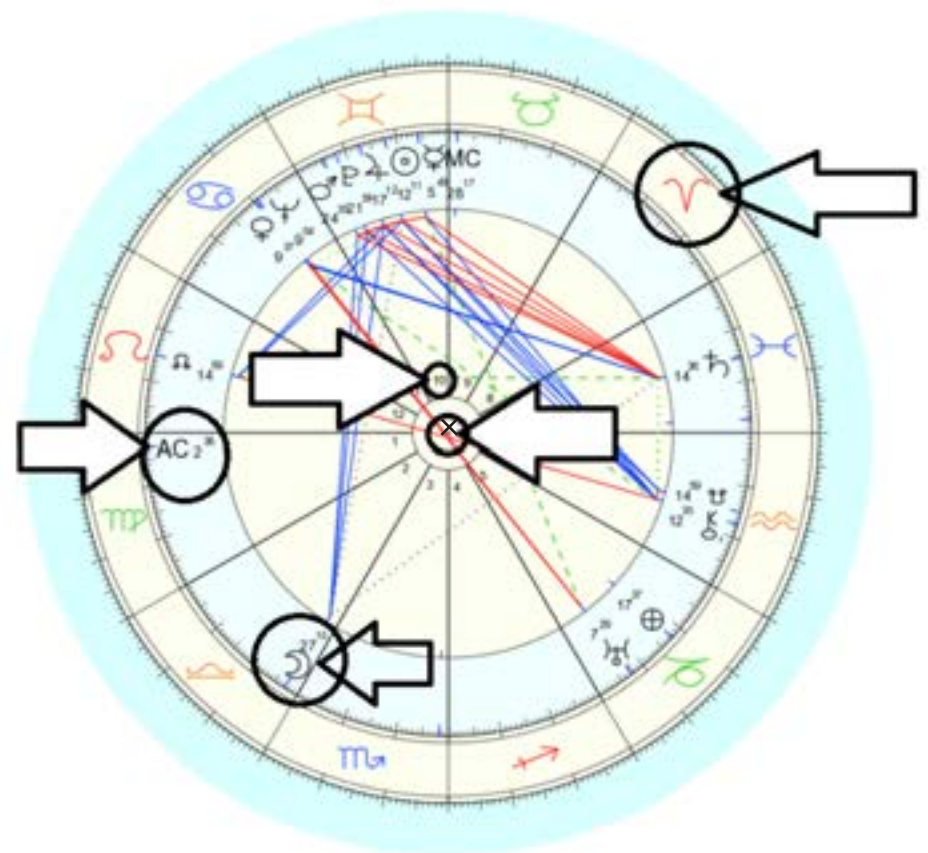

**2. 2ND CIRCLE.** The Houses. Do you see the arrow pointing to the 10? Those are the numbers for the houses. You should see 1 through 12. If you don't have a birth time then you won't see the house numbers.

**3. 3RD CIRCLE.** The Planets. Now find the arrow pointing to the crescent-shaped moon with the numbers 27.16 above it in the 2nd house. That is the moon! Each of those symbols in this ring is a planet. The numbers 27.16 are the degrees. There 30 degrees in each astrological sign (0 to 29) and 60 minutes in each degree (0-59). Don't confuse the minutes used to measure the arc of a circle with the minutes in how we tell time. They are different. The moon in this chart is located in the 2nd house at 27.16 degrees.

**4. 4TH CIRCLE.** The Astrological Sign. Look for the red, fancy-looking "V" in the 8th house. That is the glyph for Aries. If you go back to the 2nd house then you will see the moon is at 27.16 degrees Libra. The abbreviated name of each sign is in the key at the bottom of the chart.

**5. 30 DEGREES IN EACH SIGN.** There are 12 astrological signs and each one contains 30 degrees to make up the 360-degree circle. In astrology, the degrees are numbered from 0.0 to 29.59. There is no 30th degree as it starts at 0.00 again.

**6. ASCENDANT (OR RISING).** You'll notice there is an arrow pointing to the "AC" in the 1st house. The AC stands for the ascendant which is at 2.38 degrees Virgo in the 1st house.

PART 2

**1. There are 2 keys below the chart - The "Slide" and the "Table" both located below the chart.**

**2. KEY #1. THE "SLIDE".** The slide is the key located in the bottom left-hand side. Starting at the left, you can see the symbol for the planet, the name of the planet, the degree (1 to 29), and the abbreviated name of the astrological sign. The numbers after the astrological sign are the minutes and seconds.

**3. THE MOON.** The crescent-shaped moon is circled again. It's the 2nd from the top in the list. You can see it says, 27 Lib 10'26" next to it. If you round up then it the number is an actually 26'10" degrees Libra. Can you find the moon up in the chart?

**4. THE ASCENDANT (OR RISING).** The ascendant is also marked at the bottom of the list in the key? It is circled and says, AC: 2 Vir 37'30". Again, if you round up then the number becomes 2.37 degrees. Can you find the AC up in the chart at 2.37 degrees Virgo in the 1st house?

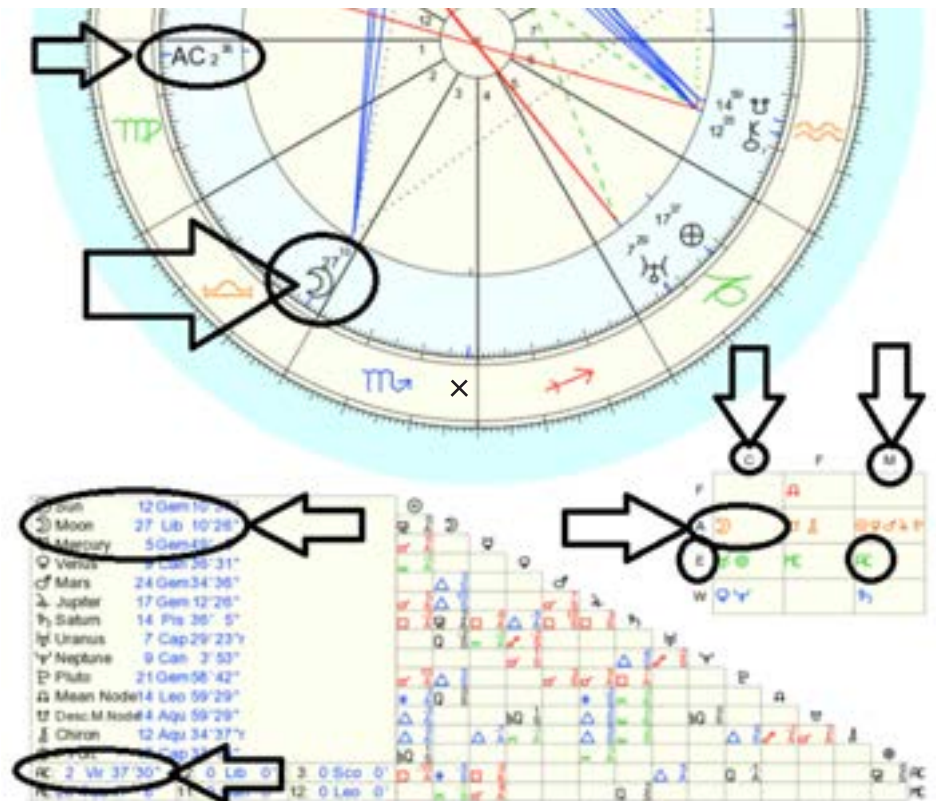

**5. KEY #2 - THE "TABLE".** On the bottom right-hand side there is a table with 12 boxes. There are 3 columns marked, "C", "F", and "M" and 4 rows are marked "F", "A", "E", and "W".

**6. MODALITIES.** The columns in the Table are the 3 modalities: Cardinal, Fixed, and Mutable. Cardinal is leadership energy, Fixed is steadfast energy, and Mutable is changeable energy. Each astrological sign functions with one of these modalities.

**7. ELEMENTS.** The rows in the Table are the 4 elements, Fire, Air, Earth, and Water. Each astrological sign has an energetic signature as an element.

**8. THE MOON.** Can you find the glyph for the moon in the Table? It is circled. If you follow the column up, then you see it Cardinal and if you follow the row, you can see it is an air sign. Libra is a cardinal air sign.

**9. THE ASCENDANT (RISING).** Can you find the AC in the table? It is circled. If you follow the column up, then you see it is a Mutable sign and if you follow the row, you can see it is an earth sign. Virgo is a mutable earth sign.

# Astrology Healing Path

**You were not born.** Rather you incarnated based on a mathematical calculation of DNA and planetary energies in this solar system that align with your karma. To this end, astrology is a tool for self-exploration and can be the foundation for healing work. I am a psychic medium who studies evolutionary astrology. Evolutionary Astrology is the study of your Natal Astrology Chart as a map of your talents, soul missions, and conscious and unconscious personality structure and ego, your personal evolution in this incarnation.

**The 4-part Astrology Healing Path allows us to work together yearly, quarterly, monthly, or weekly together in a partnership.**

# The 4-part Astrology Healing Path

## **Part 1 – Natal Astrology Chart – An Astrology Chart Reading like no other!**

Let me show you the possibilities of your soul's missions and talents you brought into this incarnation! The goal of this reading is to shift your consciousness to see how you can use your gifts in service to your work and soul missions. Includes private chart study, a personalized written report, and a one-hour session.

## **Part 2 – Astrology Natal Chart Readings continued – You can't learn everything about your birth chart in one reading.**

After we have completed an Astrology Natal Chart Reading then schedule an In-Depth Natal Chart Reading. In part 2, there will be a quick review of the main points, an interpretation of any planets that weren't touched upon, then we'll dive into planets we didn't cover. A few Natal Chart Readings are recommended so we can focus on interpretation of each planet and its house and the aspects they all make to each other. A deep study of this natal energy signature will confirm what you have already know about yourself but have been unable to explain at times. Each session, you will receive a written, personalized astrology report before our hour-long time together.

# The 4-part Astrology Healing Path CONTINUED

## **Part 3 – Astrology Transit Reading – Predicting how the heavens will affect you.**

The next step is talking about where the planets are transiting now and how that is affecting you, and this is accomplished by an Astrology Transit Reading. On your Natal Astrology Chart, it is possible to mark where the planets are to see which aspects are being made. In this reading, I map out and interpret the major transits to your Natal Astrology Chart over the next time 3 months or time period that you select. Most people like to receive this monthly or quarterly so they are aware of possible changes in their lives.

## **Part 4 – Soul Therapy, Soul Retrievals, Akashic Records + Astrology – An alternative to talk therapy.**

Continue your lifetime healing by working together on a soul level. A soul therapy session involves going into a deep meditative state where you retrieve parts of yourself that were scarified for your survival throughout your life. I can also receive messages from the Akashic Records, the depository of your soul's past, present, and futures lives and thoughts. Being within a space of the Akashic Records or Soul Retrieval work allows you to receive divine information. This is very important work to do in your lifetime and is an alternative to talk therapy. The use of astrology, especially the current moon cycle is an important part.
